News about Informatique

[Logibec Groupe Informatique reports earnings for Year to Sept 30](#)
1993-01-12T05:00:00+0000

Results are in Canadian dollars.

[Elsewhere: Computing in Cloud](#)
2009-10-21T16:30:28+0000

France's efforts to ensure that English terms do not encroach on the French language sometimes result in awkward translations. For example the term World Wide Web is translated as toile d'araignée mondiale (literally, "global spider web").

In a splendid article for The Wall Street Journal, Max Colchester shed light on the pitfalls associated with France's efforts to ensure that English terms do not encroach on the French language:
