COMMIT CONVENTION

[FEAT]|[FIX]|[DOCS]|[STYLE]|[REFACTOR]|[PERF]|[TEST]|[CHORE]|[MERGE]

FEAT : Add a new feature.

FIX : Fix a bug.

DOCS : Documentation changes.

STYLE : Code style change (semicolon, indentation...).

REFACTOR : Refactor code without changing public API.

PERF : Update code performances.

TEST : Add test to an existing feature.

CHORE : Update something without impacting the user (ex: bump a dependency in package.json).

MERGE : Merge two branches

Usage:

[TYPE](scope?) Message

->Body?

scope + body : not required

Exemple:

[FEAT](Mobile) Login Page

-> Check if password is strong or not
